RECOMMENDATION LETTER

We are working with FL Technics since beginning of 2010 and successfully fulfilled many projects. We are very pleased with all the products and services we have received. Quality, reliability, lead time of work performance and pricing policy with no doubt make the company really stand out. Prompt solutions can be offered for any specific requirements or urgent needs apart from common tasks performance. Our business relations at initial stage become very friendly and we feel good and unconditional support at any situation.

We are satisfied about the process and the results of our collaboration with FL Technics and will continue and develop our cooperation in future.

Sincerely yours

General Director

Oleg Usmanov
